DAB+ in a multiplatform world

Monday 5 March 2018

WorldDAB Workshop CONFAB

DAB+ in a multiplatform world

Getting DAB+ and hybrid radio into smart devices

- What do broadcasters want?
- What has been achieved so far?
- What is left to do?

Planning DAB+ before analogue TV switch off

- Who has already done this – how has it gone?
- Importance of trials – how you can start even before you have regulation in place and a test transmission on air
